**OPERATING RATE
IS ESTIMATED AT
50-60 PER CENT**

& O. Shipments of Coal and Coke 40 Per Cent of Pre-Strike Average.

C. VALLEY NEAR NORMAL

Monongahela Division of Pennsylvania has biggest day since strike began; Sand Rock Only Mine to Lose Ground; Gains Elsewhere.

The extent to which the Connellsville and neighboring mining regions are recovering from the effects of the strike is very definitely shown in the cords of shipments over the railroads.

Comparing the week ending April 23, the third week of the strike, with a week ending March 25, the last week of full operation preceding the strike, the records of the Baltimore & Ohio railroad show that the shipments of both coal and coke averaged 50 per cent. Under normal conditions a coal and coke movement averages 5,000 to 5,500 cars a day. Last week the average was 1,800 cars a day. The decrease of 75 per cent in the shipments is heavier than the decrease in coal shipments.

The Chesapeake & Brumley railroad, which serves 10 miles, four of which are idle, averaged 30 cars a day. On the Somerset & Cambria, Alto and Salisbury branches the normal production was 500 cars each. Last week it averaged 440 cars. Smithfield the daily movement is close to 350 cars.

In the Indian Creek Valley, with 74 its 25 mines in operation, or the number active before the strike, shipments are running from 40 to 50 cars, as against the pre-strike average of 50 to 65.

On the Monongahela Division of Pennsylvania railroad 450 cars of coal and coke were moved yesterday, or less than one single day since the strike was inaugurated. The activity of the Fairmont Division of the Baltimore & Ohio was greater yesterday in 20 for several weeks.

Railway officials in charge of car distribution and movement estimate at the region is today operating at 60 per cent of the pre-strike level of combined coal and coke production. The shade instance of further slack of miners is reported today from the Sand Rock mine of the Chesapeake & Brumley. Part of the focus quit work but the mine is still in operation. At Nellie 18 cars were charged yesterday. Clarissa charged 60 cars and loaded 10 cars of coal. The Stewart mine of A. J. Ralston, Inc., in the Mount Pleasant district, loaded 700 tons of coal. Several small mines in the vicinity of Scottdale, Fairchance and Altoona resumed.

**Marion Ream's
Husband Denies
Former Marriage**

By Associated Press.

NEW YORK, April 27.—"Untrue" is the reply which counsel for Mr. Marion Ream, 31, of Chicago, gave to Mrs. Anastase Andreievich Vonsiatky-Vonsiatky yesterday, made the claim of a woman living in Paris for some years as an unmarried woman under the name of Mrs. Vonsiatky. She is a Russian. Her right name is Gouvtchik.

"Mr. Vonsiatky-Vonsiatky wishes emphatically deny that he has any to do with the lady who was Mrs. Stephens and whom he married in New York City. The woman, Mrs. Vonsiatky-Vonsiatky, who has been registered and living in Paris for some years as an unmarried woman under the name of Mrs. Vonsiatky. She is a Russian. Her right name is Gouvtchik.

"Mr. Vonsiatky-Vonsiatky met her in the Crimea and they had never together as husband and wife, or until now has she claimed to be married. She knew of the intended marriage of Mr. Vonsiatky-Vonsiatky to Mrs. Stephens before it took place."

Press dispatches quoted the Parisian claimant as stating that she had been married to Mr. Vonsiatky-Vonsiatky at Yalta in the Crimea in 1920, and that this bond never had been broken, although it had been claimed at the ceremony was illegal, as the bride had not been baptized.

**BLIZZARD TRIAL IS
BEGUN; JURY CHOSEN
WITH RECORD SPEED**

Most of Talesmen Summoned in Mine Workers' Treason Case Are Farmers; Bill of Particulars Filed.

CHARLES TOWN, W. Va., April 27.—A jury to try William Blizard, a district officer of the United Mine Workers, was selected in court here today. A majority of the talesmen are farmers and their selection was made in record time.

The state's amended bill of particulars charged that 44 local unions of the United Mine Workers contributed to a fund which was used to arm and equip the men who took part in the march and the fighting on the Logan-Burns county line. Frank Snyder, editor of the local labor publication, Fred Mooney, secretary-treasurer of District 17, and Harold W. Houston, counsel for the union, were named as officers of the fund. Snyder and Mooney are defendants in the armed march cases while Houston is one of the attorneys for the defense.

After the bill was presented the defense declared it was not inclined to raise any other question on the bill and announced its readiness to proceed.

John L. Lewis, international president of the United Mine Workers, who came to confer with union leaders, but with defense counsel.

When the amended bill was read Snyder declared the fund of which he was president was for defense of men on trial on various charges in Illinois and Greenbrier counties.

**MONEY DUE BOY
SCOUTS COMING
IN VERY SLOWLY**

About \$1,000 Outstanding on Pledges of \$3,000 Made in 1931.

MASS MEETING CALLED

Field Executive J. W. Seymour of Harrisburg Will Address Those Interested at Carnegie Library Hall Monday Evening; Plan for Camp.

Connellsville Boy Scouts are having some difficulty in collecting the remainder of money due the organization on pledges made by citizens of the city in 1931. Uniformed members of the various troops of the city have been making collections during the past several days in an effort to clear up an outstanding amount somewhat over \$1,000. The result of Saturday's canvass noted the organization exactly \$95.

The Scout Council is making a request to those who are delinquent in meeting their pledges to pay up as soon as possible. The campaign for funds was put on by the Scout troops in 1931, at that time about \$3,000 being subscribed. Since then not quite \$2,000 has been paid into the treasury and the funds are getting low. The response to the appeal for payment in full are not being well received and Scouting is suffering as a result.

The treasury has been depleted by summer camps conducted in the Indian Creek Valley, attended by several hundred members of the troop and other general expenses.

In spite of the lack of interest on the part of the townspeople and the little support the local Council is given by many of its members, Scout movement has continued to grow.

In the interest of the work a meeting will be held in the Carnegie Library next Monday night at 8 o'clock to which all persons having the welfare of the Scouts at heart are invited. Field Executive J. W. Seymour of Harrisburg will be present and make an address. Members of the local Council are expected to attend and following the public meeting officers for the next year will be elected.

Preliminary plans for the summer camp are already under way. The ground location is out of the way this year, the site in Indian Creek Valley having been leased last year for a term of five years by the local organization.

**Ku Klux Cross Is
Reported Seen on
Hill Above Danbar**

Rumors of Ku Klux Klan activities emanated from Danbar today following the reported appearance of the fiery cross on a hill near Atlas, adjacent to that place, last night. The cross, according to one report, was very plain for about 15 minutes, when it disappeared. It was seen about 8:40 o'clock.

Another report said persons could be seen moving about the cross and that they were "dressed up," but whether in the white robes of the Klan could not be ascertained. There have been persistent rumors of getting organizations of the Klan in Uniontown, Connellsville and Greensburg.

**Big Crowd Attends
Opening Night of
Automobile Show**

Crowds of persons attended the first annual automobile show to be held in Connellsville, opened last night at the State Armory. The show will continue throughout the week, with a special musical program each day. The cars were all placed yesterday and the big auditorium beautifully decorated. There are many various makes of machines in display and these were viewed with interest last night by scores who attended their first automobile show.

Connellsville and Uniontown dealers are represented at this show, together with a number of accessory dealers and a round course in advertising good roads.

SAFE CRACKERS BUSY

Amateur Yegs Believed to Be Working in West Virginia.

MORGANTOWN, W. Va., April 27.—Morgantown police officials were convinced today that a band of amateur safe crackers is operating in the territory. This conviction was expressed after they were called this morning to investigate two attempts to break open safes during the night.

After examination police officials said there could be but little doubt that the burglars were the same who attempted to rob the Brimstone Bank at Brimstone Mills, W. Va., near here, early this week.

**Son-in-Law of
Jas. S. Darr on
Missing Plane**

Among the persons aboard the seaplane Santa Maria which left Key West Fla., Monday morning for Nassau and was missing until nearly noon Wednesday when it was found on Williams Island in the Bahamas, was Dr. Eugene C. Lowe, son-in-law of Mr. and Mrs. James S. Darr of Connellsville.

A message received this morning from Mrs. Lowe read: "Eugene all right. Left Monday morning by plane for Nassau. Lost until this morning. Navy Department took it up and all Navy here and vicinity went out. Plane found out of gas on Williams Island. Was en route to Nassau for a patient. We have been nearly frantic. Will write particulars."

According to an Associated Press dispatch the Santa Maria was carrying 25 to 30 much gasoline in combating a gale that it was forced down on Williams Island Monday afternoon. All on board were safe. The three passengers, had gone on to Nassau by a small boat while the two pilots and the mechanic remained with the plane.

The trip to Nassau was being made in brief to Key West another airplane pilot who had been mistaken for a prohibition officer and stabbed. He was a friend of Dr. Lowe.

**OPERATORS ASK THAT
INJUNCTIONS AGAINST
UNIONS BE PERMANENT**

By Associated Press.

SOMERSET, April 27.—Judge John A. Berkey, in common pleas court here today opened the hearings on application of coal operators to make permanent injunctions granted last week against John Murphy and officers of the United Mine Workers who are endeavoring to organize the non-union miners of Somerset county.

Counsel for the miners held that the men had done nothing unlawful and that the court had no jurisdiction. A test was made on the application of the Consolidation Coal Company, which, while it has 14 mines and 2,000 employees in Somerset county, has its office and principal properties in Fairmont, W. Va. Frank R. Lyon, its vice-president, testified it had \$3,500,000 invested in the county in addition to the first cost of the land. He said the coal had been mined in seven years for amusement and recreation for the miners and \$35,000 on improved housing.

**Bryan Brands West Virginia
Professor Coward for Stand
On Evolution and the Bible**

By Associated Press.

MORGANTOWN, W. Va., April 27.—William Jennings Bryan has sent a check for \$100 to Dr. R. C. Spangler, professor of botany in West Virginia University, as a reward for answering certain questions on evolution put

by Mr. Bryan in a recent address here. Dr. Spangler is undecided whether he will accept the money because Mr. Bryan took the position he had given nothing and in the letter declared that "it is worth \$100 to be seen a college professor guilty of cowardly evasion."

Mr. Bryan's challenge was to any university professor who could harmonize the Bible and the principles of evolution and Dr. Spangler undertook the task.

Mr. Bryan sent five new questions, the first of which read:

"Are you willing to put in writing and sign a statement declaring you believe you are the descendant of an ape?"

Dr. Spangler said today he had not decided whether he would keep the \$100 but he would refuse to answer the question which he described as being no part of the original offer.

Section 100 Feet Long Goes Out at Pydras; No Casualties.

LARGE AREA IS MENACED

Water Continues to Pour Through Break at Weekman and Thousands Will Be Driven From Homes; Fifth River Falls, Is Within Banks.

By Associated Press.

NEW ORLEANS, April 27.—A break in the Mississippi river levee at Pydras, about 14 miles south of New Orleans, was reported today. A section of the levee about 100 feet long gave way, the report said, and approximately 350 families were fleeing. The flood, unless checked, may cover a large area.

NATCHEEZ, Miss., April 27.—Slack waters of the Mississippi river pouring through a rapidly widening break in the Weanona levee this morning reached and entered the town of Ferriday, La., four miles from the break. The residents had evacuated the town in the approach of the water in ample time to escape. The town of Vidalia, with a population of 2,000, is next in the path of the flood and is expected to be reached today.

**200 Women Attack
Pumpers At Mine;
Three Are Fined**

Two hundred foreign women, armed with clubs, knives, stones, pickers, salt and pepper, marched on the "Tower Hill No. 2 mine this morning and attacked the workers, perilled at the plant by the union to protect it against natural elements and keep the pumps running. Three were arrested and half a dozen men, including the deputies and state police, suffered injuries.

The trio arrested said the women made the attack because they were hungry and had nothing to eat. They declared that others had no right to work when their husbands could not. There are eight or 10 men employed with permission of the union.

When the women attacked the workers as they were going to work the deputies interfered. Then they turned on the deputies and when the state police arrived included these officers in the fight. The three arrested were given hearings and sentenced to pay \$10 fines and costs. Warrants were issued for five others. Warning was given that another outbreak would result in workhouse sentences. The women ranged in age from 14 to 60 years. About 200 men accompanied them but stood aside while the fight went on.

Yagrut Gets 60 Days.

Daniel W. Lanier of Ardmore, S. D., was arrested here yesterday on a charge of vagrancy. City Detective J. W. Mitchell made the arrest. The man was sentenced to 60 days in the workhouse.

Following investigation of the shooting by Coroner S. J. Baum, Policeman Price was held in \$250 bail pending the decision of the inquest which will be held Saturday at 3 o'clock.

It was said in Uniontown today that the father of Livengood considered the shooting was unjustified and that a charge will be entered against the officer.

Following the shooting of Livengood Frank Cornish of Lenox street, Uniontown, was arrested as one of the men in company with Livengood. According to the story told by Cornish to Mayor William H. Smart, he and Livengood had plotted to steal a quantity of whisky in a car parked in Penn street.

**LLOYD GEORGE
GIVES WARNING
OF WAR MENACE**

By Associated Press.

GENOA, April 27.—Premier Lloyd George drew an ominous picture of Europe last night. In addressing the British and American press representatives, he declared that the object of Genoa was to clear up political difficulties which were full of menace.

He compared Europe to scolding a level lava which, like the earth's crust, was seeking a proper level. This adjustment was full of peril, he said.

The world must recognize the fact, he said, that Russia and Germany, combined, control over two-thirds of the people of Europe. Their voices would be heard and the Russo-German treaty is the first warning of it.

But America is not here, so Europe must do her best to solve the problems in her own way, he declared.

Lloyd George gave his opinion on that the disorganization of Europe would affect the entire world, including the United States. He was amazed at people who ignored the perils of Europe facing Europe today. Unless Europe recognizes in other words, unless the Genoa conference succeeded in arranging a pact of peace, he was confident that in his own life, certainly in the life of the younger men present, Europe would again welter in blood.

Bronze Memorial Dedicated in Botanical Gardens in Washington; Federal Employees Given Holiday by Executive Order; Tree Planted.

By Associated Press.

CINCINNATI, April 27.—President Harding was given a rousing welcome on his arrival here today on his way to Point Pleasant, where he is to take part in the centenary celebration this afternoon in honor of the birthday of Ulysses S. Grant.

Paying tribute to General Grant, President Harding said:

"His life should be a shining mark for every young American. He overcame all handicaps. He battled against poverty and mediocrity and he arose to the highest honors in the land of his birth. It is one of the greatest days of my life. I am glad to honor a man of the sterling character of General Grant and I am glad to get back to Ohio even though only for a short time."

POINT PLEASANT, O., April 27.—The nation turned today to this little hamlet to celebrate the 100th anniversary of the birth of one of the Presidents and a great military leader, Ulysses S. Grant.

On the river from Cincinnati came a flotilla bringing the President, his wife, congressmen, high national officials, uniformed military officers, soldiers, state officials, men prominent in civil life and hundreds of other citizens.

After viewing the place where General Grant was born, President Harding was to deliver an address from a small platform erected near the side of the Grant home. Sound amplifiers will make his voice audible to all in the audience and to the crowds that were expected to gather in Cincinnati, 70 miles away.

WASHINGTON, April 27.—The machinery of government was halted today by executive order of President Harding in order that thousands of federal employees and officials in connection with visitors and the citizenry of Washington might do honor to the memory of General Grant at the dedication of the bronze memorial to the historical gardens on the centenary of the birth of the great Union soldier and President.

FORESTER BREARER THREATENS DRASTIC MOVE ON SAWMILLS

HARRISBURG, April 27.—In a determined campaign to eliminate forest fire hazards in this district, District Forester Brearer of Luzerne has notified several sawmill operators and lumbermen that their operations will be closed if the dangerous condition around their mills is not removed.

One of the pieces declared a public menace is the sawmill of Charles Delivier of Connelville. Forest Inspector E. C. Myers, reported Delivier has not removed the inflammable material from the mill site.

A. P. Freed of Landstreet, Somerset county, was notified to remove

brush and refuse 25 feet from the road running through his timber operation. T. E. Cooper of Johnstown and G. J. Sarver of Holesburg, both of whom are running lumber jobs in Somerset county, have been notified to improve the conditions around their mills so there will be less danger of fires starting there.

Brush near the line of the West Penn Power Company, between Luzerne and Luzerne, is being burned to reduce the danger of forest fires.

Forester Brearer has located 35 forest fire hazards along the Baltimore & Ohio railroad between Keystone station, Somerset county, and Connelville, Fayette county, and also along the S. & C. Branch, between Rockwood and Johnstown. The supervisors on the former railroad are actively burning safety strips along their tracks. They are removing all inflammable debris within 300 feet of the tracks so there will be less danger of forest fires starting from locomotive sparks.

TARR, April 27.—Clarence Cole left Monday for Warren, O.

The Ruffsdale Baseball Club has ordered new suits for the team. The suits are blue and white with a blue

triangle on the arm and the blue letter "R" placed in the triangle. Men are working on the diamond to get it in good shape so that practice may be started some time this week.

Feels Like a New Woman.
"I was a sufferer from kidney trouble for several years," writes Mrs. Arthur Demille, R. F. D. 1, Grasmere, N. J., "and suffered so much I felt completely lamed all over. Since I have been taking Foley Kidney Pills I am not so lame. My back ached all the time and my eyes were all a blur. Now I can see and feel like a different woman. Since I have taken two bottles of Foley Kidney Pills I don't have that tired feeling. I can do my own work now." They bring quick results. Sold everywhere.—Advertisement

THURSDAY EVENING, APR. 27, 1932.

WIRE WORKERS AT NELLIE MINE.

Having done the sensible, profitable
and proper thing, both as workers and
citizens, the employees of the Nellie
mine and coke plant will be very
heartily commended by the public for
having returned to work.

Realizing as every thoughtful coke
and mine worker must realize that ab-
solutely nothing can be gained by
striking off the job, and that every
day's idleness means a loss that can-
not be made up later, the Nellie men
have made the wisest decision they
could have made. They know that the
men of the region who have thrown
down their tools cannot tell why they
have done so. There has been no de-
mand for higher wages, better work-
ing or living conditions, nor occasion
to protest against a proposed reduc-
tion in wages. Their capabilities played
upon by self-tongued organizers from
distant fields, the men of the coke
region have been fooled into taking
steps many of them are beginning to
see will lead them nowhere except in-
to the discomforts of a long season of
idleness.

Being men gifted with the good, old-
fashioned virtue of hard common
sense, the Nellie workmen have made
up their minds that a full pay enve-
lope and cheerful greetings from the
wife and kiddie at the end of the
day's run are better than an empty
floor barrel and the nerve-breaking
pleadings of the children for some-
thing to eat.

These men are also aware that if
everybody, employs as well as em-
ployer, does his part to set the wheels
of industry in motion, or keep them
moving when started, they will be
helping speed the coming of an era
of prosperity that will do more than
any other thing can do to bring about
a readjustment of the costs of living
and make employment more regular
in every line of business and industry.

The Nellie workers are, therefore,
to be congratulated for having pro-
vided all the affected sections of the
coke region with a good example.
They deserve to be encouraged and
given every reasonable and proper
opportunity to receive the largest pos-
sible benefits from their employment.
That they will be there can be no
doubt. Their employers as well as
others of this class in the coke region
have an interest in their workmen
above and beyond the returns received
from their labor, in spite of all the
visiting trouble-makers may have to
say about alleged "abuses" which do
not exist, except in the disordered
imaginations of the misguided stran-
gers within our gates.

The welfare and prosperity of em-
ployees has been and is a matter of
constant concern to the employers of
the coke region. Pleasant and cor-
dial relations between these two
groups of men have been continued
through the past 28 years without a
break until the advent of the outside
workers who came here purposely to
disrupt these relations.
Left to themselves the workers of
the region would never have thought
of doing otherwise than holding fast
to their jobs, which in many instances
had been procurable only a few weeks
or months before the strike began.
Finding how badly they have been ad-
vised by the strangers who came into
the region to get help in pulling their
own chestnuts out of the fire, the men
at Nellie have shown how much wiser
and more sensible they are than their
other workers at other plants who
have not yet learned, or at least do
not admit, that they have been misled
into doing a very foolish thing in
striking without hope or possibility
of gaining a single thing.

NO TIME FOR SENSATIONAL REPORTS OR RUMORS.

Officials of the Baltimore & Ohio
Railroad have performed an excellent
public service in announcing the fact
that the runaway of part of a coke
train on the Smithfield & Mascouton
Branch, which resulted in the death
of one police officer and the serious
injury of a second, did not result from
malicious tampering with the train.
A sensational report was published
in Pittsburgh papers yesterday morn-
ing which very plainly intimated that
the train had been out by persons tak-
ing part in or sympathizing with the
strike now on in the region. In the
absence of facts which would make
such a construction of the cause of
the happening possible, the railway
officials are to be commended for hav-
ing promptly done their full part to
allay any suspicions that may have
been aroused connecting the idle
workers of the region with the un-
fortunate affair.

and untruthful rumors can very easily
be magnified and the public mind in-
flamed thereby. It is therefore the
duty of every person to refrain from
lending aid to the spread of uncon-
firmed reports which allege that the
mine workers are responsible for un-
lawful acts. Very much to their
credit they have been exceptionally
law-abiding and peaceful since the
sympathy strike began to throw sec-
tions of the region idle. Some minor
breaches have occurred here and there
but for most part these have been
personal affairs between workers. Oth-
erwise there has been little or no oc-
casion to lay to the striking workmen
the charge that they are disposed to
commit unlawful acts.

Building Good Roads.
"Hordes of autos now remind us
We should build our roads to stay.
And departing leave behind us
Kinds that rain don't wash away.
When our children pay the mortgage
Father's made to haul their loads,
They'll not have to ask the question,
Here's the bonds but where's the roads?"

Just Folks

THE OLD-TIME LILAC BUSH.

A lilac bush is a lovely thing
Wherever it blossoms in early
Spring.
But I have a tender regard
For the oldtime bush in an oldtime
yard.
With the house nearby and the
youngsters down,
And the old folks living there all alone,
For always I fancy I can see
The visions that cling to the lilac tree.
The house still stands, but the walls are
still,
And the storm have battered each
window sill;
There's a tired, worn look on the
humble place,
Like the weary look of the mother's
face.
Yet somehow or other I seem to know
That joy returned here in the long ago,
That somehow or other I seem to see
The dreams which cling to the lilac
tree.
Time was those feeble hands were
strong,
And the faltering footsteps danced
along;
Time was youth romped in that lonely
place,
But never the years will halt their
pace,
And the young man must go, but the
old will cling
To the home they've loved to the final
Spring.
For they hear the laughter that used
to be,
When the bloom comes back to the
lilac tree.

A lilac bush is a lovely thing
Wherever it blossoms in early Spring.
But best with age and the smiles and
tears,
Which comes to all with the passing
years,
It seems to me that it wears the glow
Of the golden days of the long ago.
For all that remains of the youth
long gone
Is the lilac tree still blossoming on.

TRY MAGNESIA FOR STOMACH TROUBLE

It Neutralizes Stomach Acidity, Promotes Food Fermentation, Sour Gassy Stomach and Acid Indigestion.

Do you know if you are a sufferer from indigestion, you have already tried peppermint, carminatives, drugs and various digestive aids and you know these things will not cure your trouble—In some cases they do not even give relief.

Just before giving up hope and deciding you are a chronic dyspeptic just try the effect of a little Eucalyptus Magnesia—the ordinary commercial carbonate, citrate, or alkali. But the Eucalyptus Magnesia—which you can obtain from practically any drug store in either powdered or tablet form. Take a teaspoonful of the powder or two compressed tablets with a little water after your next meal, and see what a difference this makes. It will instantly neutralize the dangerous, harmful acid in the stomach which now causes your food to ferment and sour, making gas, wind, flatulence, heartburn and this bloated or heavy, tummy feeling that seems to follow most everything you eat.

You will find that provided you take a little Eucalyptus Magnesia immediately after a meal, you can eat almost anything and enjoy it without any danger of pain or discomfort to follow and moreover, the continued use of this Eucalyptus Magnesia cannot injure the stomach in any way so long as there are any symptoms of acid indigestion.—Advertisement.

HOW TO KEEP WHITE CLOTHES FROM TURNING GREY

Haven't you often wondered why your white clothes sometimes have a dingy, grey look?

Almost always it is because you haven't cleaned them thoroughly—and it is easy to impossible to clean clothes clean if you don't use the right kind of soap.

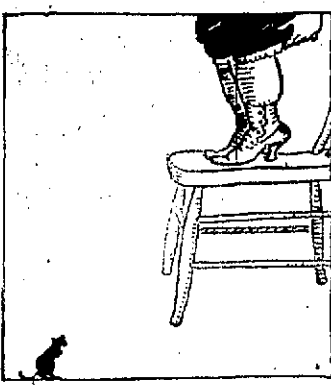

Soaps that do not dissolve completely leave little sticky, greasy particles on the clothes. You just can't miss these off.

A soap like Rinsol dissolves completely. When you soak your clothes in Rinsol suds there are no little bits of undissolved soap left to hold the dirt. You can rinse out all the dirty, sudsy water.

Then, too, with Rinsol there is no hard rubbing. It soaks out all the most ground-in dirt.

Use Rinsol and your clothes will always be a snowy white—without that grey look that makes you ashamed to hang them out.

Wonderful for Sick Stomachs

That's What Every Stomach Sufferer Says After Taking One or Two Doses of Dr. Orin's Great Stomach Prescription.

Everyone who tries it willingly acknowledges that it does cure indigestion, and certainly banishes dyspepsia and other stomach distress almost instantly.

Read this letter from Wm. Starkey, Rock Creek, Ohio:

I was sick for several years, went to hospital after getting no relief from doctors and many remedies that I tried. Unable to work, and confined to the house, I was advised to try Doctor Orin's Stomach Remedy. I had no faith in anything any more, but I tried it and to my happy surprise it did me good. I am now perfectly well and for six months have been working every day in the blacksmith shop, eating everything I want and in perfect health.

It is with pleasure that I recommend Dr. Orin's Stomach Remedy.

Money back if Dr. Orin's Stomach Remedy does not do what we say it will, and remember that this remarkable remedy is the prescription of a practicing physician who used it with great success in exactly such cases as yours during a period of 60 years. All good druggists can supply you.—Advertisement.

FRECKLES

Now Is the Time to Get Rid of These Ugly Spots.

There's no longer the slightest need of feeling ashamed of your freckles, as Othine—double strength—is guaranteed to remove those homely spots. Simply get an ounce of Othine—double strength—from any druggist and apply a little of it at night and morning and you should soon see that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely. It is seldom that more than an ounce is needed to completely clear the skin and gain a beautiful clear complexion.

Be sure to ask for the double strength Othine as this is sold under guarantee of money back if it fails to remove freckles.—Advertisement.

NOW DO MY WORK WITH EASE

Because Lydia E. Pinkham's Vegetable Compound Restored My Health

Hornell, N. Y.—"I was in bad health but there didn't seem to be any one thing the matter with me."

I was tired out all over and it was an effort for me to move. I was irritable and could not sleep nights and had trouble with my bowels and at my periods. It seemed that nearly everyone around me knew of your medicine and wanted me to try it, so at last I took Lydia E. Pinkham's Vegetable Compound Tablets and Lydia E. Pinkham's Blood Medicine and improved every day. I do all my own work now except the washing and do it with ease. I can accomplish as much in a day now as it would have taken me a week to do last winter and I try to get every one I know to take your medicine to build them up. You are welcome to use this letter as a testimonial if you like."

Mrs. CHAS. BAKER, 21 Spencer Ave., Hornell, N. Y. In almost every neighborhood there are women who know of the value of Lydia E. Pinkham's Vegetable Compound. They know because they have taken it and have been helped. Why don't you give it a trial?

Can YOU Hear Opportunity's Knock?

It has been said that opportunity knocks but ONCE at each man's door, yet how many men have lived their span of life and died without ever having been stirred to action by even the faint hint of a knock.

Was it because the call never came to them?

Indeed it was not! The reason they apparently did not get their chance was that they THEMSELVES did not recognize the gentle tapplings of fortune when they came.

Can you?—Maybe, let's see.

Right now, here in Connellsville, thru the medium of this advertisement, opportunity is knocking at the door of one and perhaps two wide-awake men, one preferably, to take the district managership in this territory for an established, going, growing business.

Only a progressive, live man with lots of initiative will be considered—he must be well and favorably known thruout the territory.

He must be a worker. He must be prepared to pool \$2,000 with others of the company—every employee and member of this organization being financially interested in proportion to the importance of his position in the company. "A man serves no master better than himself," on this principal our success is built.

Can You Solve the Presidents Puzzle?

Brush up on your history, folks. Solve the very latest Presidents Puzzle. You can do it. If you try. In the picture above you will find the names of ten presidents. The letters of their names have been rearranged. If you can straighten them out to spell correctly the names of the ten presidents you have solved the puzzle. For instance, the first one is George Washington. If you can solve the puzzle, you can win \$1000 or an Orkland case which we are offering together.

110 Points Wins First Prize

If you can correctly rearrange the ten great names you will receive 50 points toward winning the \$1000, or five points for each correct name. You will earn 35 additional points by qualifying your answer that is, by proving that you have solved a copy of The Rural Weekly to five of your friends. This will give you 85 points in all. The final 25 points will be awarded by three judges of the puzzle (who live in no way connected with The Rural Weekly) to the person who sends in the largest correct list of words made up from the letters in the names of the ten presidents.

Costs Nothing to Try—\$1000 Just for You

Remember, folks, you don't have to spend any of your own money to win. No, indeed. Not one penny need you spend to be entered in the Rural Weekly. All we want you to do is to help us interest The Rural Weekly in five of your friends. That's simple, isn't it? It's going to be easy for you to win. Opportunity with a great big "O" is knocking your way. Send your answer to the puzzle and we'll tell you how to win the \$1000 that is waiting just for you. Only 110 points win First Prize. You can get them. It's easy to get points. Start now and send in your answer. List carefully the ten presidents' names on a sheet of paper and send it in. The puzzle will be solved the second time. There are 35 prizes in all, and 10 copies of a fine each tying one, totaling will receive identical prizes.

Connellsville Independents Have Attractive Schedule; First Class Teams Coming

Opener Will Be With Irwin, a Home Game Last Season; Holiday Games.

DETROIT HERE JULY 6TH

By James M. Driscoll
Sporting Editor.

That the Connellsville Independents mean business this year is very evident. A schedule, full of first-class baseball, has been drawn up to keep the club busy until the end of July and it is expected to play in August will be played.

The opener on May 13 will be with Irwin, the same team that opened here last year. The locals lost last season in a game which developed into a farce. The final score was 9-2. A different result is expected this time with a first-class combination on the field for the Independents.

The schedule also includes: May 20, Malone; May 27, Pittsburgh College; May 30, Homestead Grays (two games); June 3, McKeesport Independents; June 10, Reineckers; June 17, Tyler Tube of Washington, Pa.; June 24, P. J. Rellies; July 1, P. J. McArdie; July 4, Washington Field Club (two games); July 6, Detroit Americans; July 8, Wilkesburg Murdoch; July 15, Pittsburgh Independents; July 22, Zanesville, O.; July 29, either Charleroi or the Grays of Pittsburgh.

Rain insurance will be placed on all games to be played on Saturdays. With fair weather on Saturdays, the club expects to see another successful season. The team is undoubtedly a far superior one to that which played last season and the schedule carries more attractive teams. There is not a second rate club among those on the list for the first three months.

An unusual attraction in the Washington Field Club, an outfit composed entirely of Italian players. Among these is Gentile, a member of the Pittsburgh Murdoch during the past baseball season. The club won over the Cobers in a game last year.

The Trump Run team won over the Olympics in a game at Trump Run last evening. The score was 8-4. Trump Run scored by the contest by scoring two runs in the third frame. Weisgerber got a home run.

The Junior All Stars defeated the South Side Sluggers in a game at the Y field, West Side, yesterday afternoon. The score was 10-5.

Managers of teams returning scores to The Courier should be careful to see that the score sheet is properly filled out. It is impossible to give the same proper notice if attention is not paid to those details as sometimes the line-ups are not designated and more frequently the box score does not balance. No box scores will be printed unless they are correct and it is impossible to figure them out when sent in with only a portion of put-outs and assists properly credited.

The Pittsburgh Pirates tumbled again yesterday, timely hitting by the Cubs giving that outfit the game. The result was 4-3. Adams opposed Alexander and the contest was not determined until the 10th inning. The Corsairs scored their tallies in the first two innings, the Cubs trying this about the middle of the game.

Tony Rendine, proprietor of the Paramount Billiard Room, has received from Danny LaPorte at Bohannan the baseball knocked by that youth for a home run when three men were on the bases in the opening game of the season with Manhattan College. It has been autographed by all members of the team. A number of Bethany schedules have also been received and will be distributed.

Alexander Wins Over Adams in 10 Shivering Rounds

CHICAGO, Ill., April 27.—Alexander, the "Great" won by a point over the veteran Babe Adams in yesterday's game between the Cubs and Gibson's Pirates. A thousand Cub admirers wrapped themselves in winter garments and shivered through 10 innings of baseball to see the home team finally win out, 4-3.

Adams was touched for almost twice as many safeties as Alex but he was at his best when the bases were occupied and got out of several tight places.

Roy Gimes, Chicago first baseman, batted in every run scored by the Cubs.

The score by innings:
Pittsburgh — 210 000 000 0—3 7
Chicago — 100 020 000 1—4 13 1

Helped Her Mother Wonderfully. In these days of "flu," coughs, colds, croup and whooping cough, it is well to know that every year there are used more bottles of Foley's Honey and Tar than of any other cough medicine. Mrs. S. L. Hunt, 515 W. 6th St., Cincinnati, Ohio, writes: "Foley's Honey and Tar relieved me of a hacking cough, tickling in the throat, wheezing and pains in the chest. It is helping my mother wonderfully. That's why druggists recommend Foley's. Sold everywhere.—Advertisement."

PERFECT GOLF SHOT

It has been said that the golfer only reaches perfection in the royal and ancient game when he holes out in one stroke, yet here is a case where the player, according to all the laws of justice and equity, should have been pronounced, and instead knew all the joys and "sorrows" of holing his ten shot. F. A. Ames of Owensboro, Ky., a former baseball player, recently took up golf. Playing the fourth hole over his home course he dubbed his shot. The ball struck the ground about 75 or 80 yards from the tee, rolled the remainder of the distance, jumped a ditch eight to ten feet wide, rolled onto the sand green and into the hole.

GASOLINE'S EVAPORATION POINT

The distillation test alone reveals the true value of gasoline.

The presence of elements which take a temperature of over 400 degrees to gasify causes starting troubles, carbon, knocking and oil dilution. The best gasoline evaporates entirely at 400°.

You cannot make your own distillation test but you can insist on Waverly because by government test, it has a lower distillation point and therefore gives more miles per gallon.

SUMMER BASEBALL WOULD AID IN ERADICATING PROFESSIONALISM

Andy Smith, Football Coach, University of California.

Professionalism must be erased from college athletics if they are to endure.

I believe that in most cases the college restrictions are perfectly proper. It is up to the athlete to be loyal to himself and his college. Deception on the part of the student works to the detriment of the athlete, the coach and the college.

I favor only one thing in the rules relative to athletics at the various colleges. I am for summer baseball. writes Andy Smith, football coach of the University of California, in the Chicago Post. I believe it would greatly help to eradicate professionalism if the colleges would permit the students to play ball during the summer months for pay. They should not be allowed to play with any team affiliated with organized baseball. Any rule that makes for deception is wrong. The provision relative to summer ball is such a rule.

Money Part Covered Up.

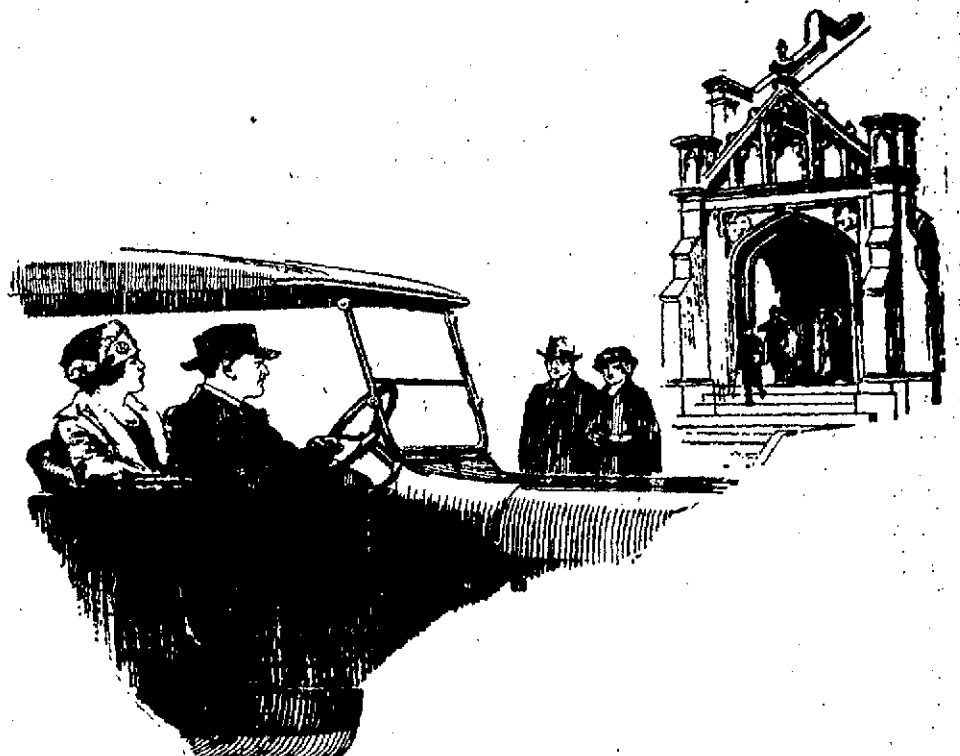

Every college player who is worth while, and who needs the money, wants to play during the summer. A great many of them do it, taking precautions to protect their amateur standing by being paid for other work, which merely covers up the baseball compensation.

Permit summer ball. Place the athletes on their honor during the college season. Deal harshly with those who offend and professionalism will take the count.

MANUFACTURING SHOWS DECIDED WESTWARD TREND

States of Atlantic Frontage Lose the Lead Previously Held by Them.

BIGGEST GAIN IN MICHIGAN

The manufacturing industry of the United States is slowly moving from the place of its beginning, the Atlantic frontage, toward the great interior which produces the bulk of the manufacturing material and the fuel with which it is assembled and transformed into the finished form. The area occupying the Atlantic frontage from Maine to Florida, the birthplace of our manufacturing industry, New England, the Middle States, the District of Columbia, Maryland, Virginia, North and South Carolina, Georgia and Florida, produced in 1919, the latest census year, says the Trade Bureau of the National City Bank of New York, slightly less than one-half of the manufactures of the country, as against more than two-thirds a half century earlier. States within the Atlantic frontage supplied 68 per cent of the manufactures recorded by the census of 1870, 64 per cent in 1880, 56 per cent in 1890, and 47 per cent in the census of 1910. The total output of the manufacturing establishments of the Atlantic frontage in 1919 was 11 times as much, in value, as 50 years earlier, while the output of the other parts of the country was 22 times as much as a half century earlier.

The westward movement of the manufacturing industry is chiefly in the Mississippi Valley which produces most of the cotton and wool and iron and copper and lead and timber of the country, and also the bulk of the fuel with which it is moved to the great manufacturing centers and there transformed into manufactures. In population that other factor in manufacturing the Atlantic states show an increase of 137 per cent in the last 50 years, and the other sections of the country an increase of 208 per cent in the same period.

Most of this increase in output of manufactures occurs in the Mississippi Valley and especially in the states adjacent to the Great Lakes. Illinois with its great iron and steel manufactures, turning establishments and pig-iron supplies, increases its output of manufactures from \$1,120,000,000 in the census of 1900 to \$5,428,000,000 in the census of 1920. Michigan, with its great automobile manufacturing industry, advances from \$20,000,000 in the 1900 census to \$3,181,000,000 or ten times as much in 1920 as in 1900. Indiana, with the aid of a natural gas fact increases its output of manufactures from \$377,000,000 in 1900 to \$1,859,000,000 in the 1920 record. Ohio, which combines the copper and iron of Michigan and Minnesota with its own coal and labor, advances from \$749,000,000 in the 1900 census to \$5,100,000,000 in that of 1920.

New York, which still shows a bigger total of manufactures than any other state, advances from \$1,872,000,000 in the 1900 record to \$8,867,000,000 in the 1920 census. Pennsylvania advances from \$1,650,000,000 in 1900 census to \$7,317,000,000 in 1920, and Massachusetts from \$908,000,000 in the 1900 census to \$4,001,000,000 in that of 1920. The southern states, now transforming their cotton and iron and timber into finished form with the use of their own fuel, also show big gains while California, with its sugar and fruit transformed from the natural condition to manufactured form, pushes its 1920 census figure up to nearly \$2,000,000,000 against a quarter of a billion 20 years earlier.

At the Theatres

THE SOISSON.

"THE PRODIGAL JUDGE" adapted from the world-famous novel opened today at this theatre for a three-day performance. "The Prodigal Judge" is a story of the ante-bellum days with the locale mostly in Tennessee. While the novel takes its name from the judge, Colonel Sisson, Price Tupper, a lovable hero eloquent at every bar and fastidiously in capacity of appetite and intellect, the interest centers mainly around the loves and fortunes of the pretty heroine Betty Malroy. And it is this character that Miss Paige portrays. She is admirably fitted into this story of the late 30s and early 40s, with the quaint and dainty costuming of that period.

"The Prodigal Judge" is a romance rich in incident, hearty in humor, full-flowing in a broad current of life and events. Love and hate and private feud, true friendship and evil ambition, all have their place in this splendid American story. The surroundings are colorful, the characters are of clear-cut types and the men and women are of the sort who do rather than talk. It is a strenuous story, of strenuous times, and it is doubtful if any other American novel could be found which so perfectly lends itself to adaptation to the screen.

Monday, Tuesday and Wednesday of next week the Dempsey-Carpenter bout "The Fight of the Century," will be shown.

THE PARAMOUNT.

"FIFTY CANDLES" the principal attraction today at this theatre is a mystery story that keeps the audience in a state of expectancy from start to the finish. It was with great pride that Irvin V. Willat announced the closing of a contract to produce Mr. Eggers' latest story of mystery entitled "Fifty Candles," while it is still fresh in the minds of the thousands of Saturday Evening Post readers. In selecting the cast for this production Mr. Willat seems to have spared no time nor expense in securing able and popular talent to reproduce the characters which become enmeshed in the tangle of this gripping mystery story. The leading role is played by Miss Marjorie Dax, a favorite with picture patrons for many seasons. Bert Glanville as Hung Chin-chung gives one of the best Chinese characterizations seen in recent pictures. George Webb as the sailor ship's surgeon and Eddie Burns as the hero are both familiar to screen audiences. Milton Ross, Gordon Mullen, William Carroll, Wade Boteler, Aggie Hefling and Ruth King, all artists of the first magnitude complete the cast.

Friday and Saturday, "Cameo of the Royal Mounted," Ralph Connor's stirring story, will be shown.

THE ORPHAN.

"APPEARANCE" a Paramount picture, is the feature picture today. The story itself is unusually captivating. It was written by Edna and Knoblock a playwright of international fame. The theme deals with that class that is set to living far beyond its means in order to keep up appearances in society—a class not confined to England alone. This propensity all but leads to a tragedy in the lives of several persons, and in the development of the story many scenes of great dramatic power arise. The outdoor views many of them photographed on the grounds of Hatfield House, England are most beautiful. The fine English landscape is pictured in all its rich beauty and many views will be easily recognized by anyone who has traveled in King George's domain. The interior settings are wonderfully massive.

The players appearing in the picture are thorough artists. Mary Glynn the beautiful English actress who was seen in "The Call of Youth," has the leading feminine role, with David Powell, popular with Paramount audiences has the leading male part. The picture was made by Margaret Turnbull, a scenarist of international reputation.

Friday and Saturday "Life," a William Brady production for Paramount, will be presented.

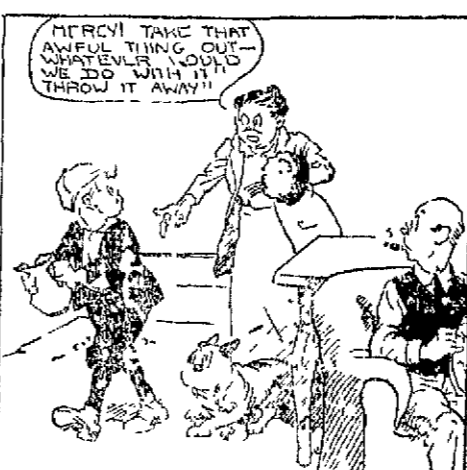

For Scalp Itch Peterson's Ointment

"If other treatments have failed to bring quick relief put your faith in Peterson's Ointment—its mighty healing power is marvelous. Says Peterson: Over a million people use it for piles, skin, sore, ulcers, sores, etc. 35c 60c, \$1.00 \$2.50 \$5.00—Advertisement.

Reduction of 84,980 Tons, Or 56.6 Per Cent, During First Three Weeks Strike

Practically 50 Per Cent of Plants and Ovens in Blast April 22.

ZONE EXTENDED TO NORTH

Affecting Additional Frick Operations, 16 of Which Are Still Holding Out Against Complete Shutdown of the Region; Smaller Output Recorded.

From The Weekly Courier.

The third week of the sympathy strike in the Connellsville region, ended Saturday, April 22, resulted in a further reduction of 23,850 tons in output, or 1,730 tons less than the curtailment effected during the second week. The cut of last week made the total reduction 84,980 tons, or 56.6 per cent, from that of the week in which the strike was inaugurated.

The condition of the region with respect to its coking plants at the close of the third week of the strike is shown in the following summaries:

Of the 62 plants active on April 1, 30, or 48.4 per cent, remained in operation.

Of 11,964 ovens in blast April 1, 5,968, or 49.9 per cent, were in blast.

Production was 64,980 tons, or 43.4 per cent of 149,960 tons, the output during the week ended April 1.

The further extension of the strike zone into the Connellsville district, and the complete suspension of coking operations of the H. C. Frick Coke Company in the Lower Connellsville district, accounted for the still deeper inroads into the regional tonnage.

Nine plants were thrown idle in the former district during the week and six in the latter, a total of 15 as compared with a total of 17 during the first two weeks of the strike.

The organizers have boasted it was a complete shut-out of the entire region is shown by the following, giving the number of plants in running on the several dates named:

District	Apr. 1	Apr. 15	Apr. 22
Connellsville	33	33	24
Lower Conn.	27	12	6
Totals	60	45	30

The closing of 17 plants during the first two weeks resulted in a total of 2,330 more ovens were placed on the idle list, making a total of 5,996 since April 1. The number in blast at the plants of the two producing interests on that date and on April 15 and 22 is shown herewith:

District	Apr. 1	Apr. 15	Apr. 22
Connellsville	4,650	1,862	1,396
Lower Conn.	7,314	7,236	4,572
Totals	11,964	9,098	5,968

The extent to which production in the two districts has been reduced at successive periods by the suspension of plants and ovens is shown in net tons in the following:

District	Apr. 1	Apr. 15	Apr. 22
Connellsville	87,950	37,319	58,039
Lower Conn.	62,010	11,900	6,950
Totals	149,960	49,219	64,989

The total loss of 84,980 tons since the strike began has been divided between the two districts in the proportions of 49,800 tons by furnace producers and 35,180 tons by merchant producers. The rate at which each has lost tonnage is revealed in the following tabulation which gives the production during the respective weeks:

District	Apr. 1	Apr. 15	Apr. 22
Connellsville	67,500	78,700	47,900
Lower Conn.	82,460	12,110	17,080
Totals	149,960	90,810	64,980

The H. C. Frick Coke Company continues to hold out strongest against the efforts to put the region out of business. Although reduced to only 16 active plants on April 22, all in the Connellsville district, and having sustained a loss of 2,072 ovens, the close of the third week left the leading interest with 4,572 ovens in the running, or 68.3 per cent of those in blast at the beginning of the strike. The independent plantings had been reduced by 14 plants and suffered the loss of 3,924 ovens, which left but 1,396, or only 26.2 per cent of their equipment active on April 1. The periodic effects of the strike on the active oven lists of the Frick company and the independents is shown below:

District	Apr. 1	Apr. 15	Apr. 22
Connellsville	6,512	8,412	4,572
Lower Conn.	432	881	—
Totals	6,944	9,293	4,572

Since last week three or four more Frick plants have been more or less crippled through defections in the working forces and one independent plant has suspended operations.

It follows, therefore, that the regional tonnage of the current week will be still further reduced, but not to the extent that it was last week, unless it should happen that the plants in the northern part of the Connellsville district, now the storm center of organizers' activities, are rendered idle. Estimated production of coke during the week ended Saturday, April 22, was 64,980 tons, divided between the two districts as follows: Connellsville, 58,080, a decrease of 23,730 tons; Lower Connellsville, 6,900, a decrease of 4,100 tons, or a total decrease of 27,830 tons as compared with a decrease of 35,610 tons during last week.

By interests the production was: Furnace 47,900, a loss of 31,800 tons; merchant, 17,080, a loss of 2,030 tons.

What Today?

The perpetual problem of "What to Eat Today" is the housewife's daily plight.

Many grow negligent and allow others to order for them.

Mostly all welcome suggestions which will vary their accustomed fare.

Yet some are wary of suggestions, fearing to chance spoiling a meal with unsuccessful experiments.

Each of you may be sure in following this suggestion to eat at least one meal of delicious fresh fish a week—you will be taking no chances of spoiling either hubby's, dad's or family's love of your good things to eat.

Especially if CHILPAK, the fish that comes cleaned, wrapped and branded, is used.

CHILPAK is so fresh, sweet and delicious that your grocer or butcher carries it side-by-side with his other products.

We know you appreciate this once-a-week meal hint and will order CHILPAK today.

Varieties include Halibut, Cod, Haddock, Sole and Boston Blue Fish.

Big Decrease Is Shown in Car Loads On Account Strike

The loading of revenue freight for the week ended on April 8, totaled 714,268 cars, 112,743 cars less than the week preceding, but an increase of 19,337 cars over the corresponding week in 1931. In the corresponding week two years ago 801,550 cars were loaded.

The slump compared with the previous week was due to a falling off in shipments of coal as a result of the miners' strike. Coal loadings for the week totaled 69,456 cars, a decrease of 115,486 from the week before, 50,985 less than in the same week last year, and 102,076 cars under the corresponding week in 1930.

Shipments of merchandise and miscellaneous freight, including manufactured products, showed an increase. The loading of merchandise and miscellaneous freight amounted to 516,662 cars, 6,041 cars more than the week before, 66,405 more than in the same week of 1931, and 32,766 more than in the same week of 1930.

One loading increased 2,188 cars over the preceding week, the total being 8,259 cars, exceeding the same week of 1931 by 3,490.

Says: Grandest Stomach Medicine in the World

Relief Comes at Once But Better Still Chronic Indigestion Is Conquered for Good.

Get a bottle of Dare's Mentha-Pepsin from the Connellsville Drug Co. or any first-class druggist, today with the distinct understanding that your money will be promptly returned if it does not stop the most acute stomach distress quicker than any remedy you ever used.

Your stomach may be so distended with gas that you think every minute your heart is going to stop beating. Yet with one dessert spoonful of Dare's Mentha-Pepsin that dreadful feeling of suffocation will vanish in a few minutes.

It's a wonderful formula—this combination of pepsin with other good stomach invigorators—so wonderful that in one small town in New Jersey, in 1921, over 6,000 bottles were sold. Never mind what causes your indigestion or gastritis, or how long you have had it, or how many other remedies you have tried, this is the one medicine that will make your old disabled stomach so strong and healthy that you can digest anything you eat without the slightest distress.

And you know that when your stomach is in fine shape, nervousness, headaches and dizziness won't bother you. Every regular druggist guarantees one bottle of Dare's Mentha-Pepsin. The Connellsville Drug Co. and all druggists sell lots of it.—Advertisement.

GOOD SOAP FOR LESS THAN TWO CENTS A POUND

Make It At Home By This Easy Process—Takes Less Than 30 Minutes.

Nowadays, more and more women are doing as their mothers did and are making their own soap. If you have never tried it, you will be surprised to see how easy it is to make good soap. Soft soap, hard soap or floating soap, just by using Kitchen Lye and waste grease together with a can of Merry War Lye, the safe and sure soapmaker.

In the old days when soap was made by the boiling process it took nearly all day to make a kettle of soap. Now it is hardly any work at all—requires no boiling—takes less than 30 minutes. Saves you money and gives you all

the pure, clean soap you need for kitchen, laundry and all household purposes.

You will find simple directions for soapmaking on the label of every can of Merry War Lye—also many other recipes such as how to make lye soap, how to soften water, how to make clothes washing easy, how to brighten cooking utensils, etc.

Merry War Powdered Lye is also a wonderful cleanser and purifier for use about the home, barn, chicken house and outdoors. Comes in a convenient can with revolving lifting top that cuts—no more oil, cannot get lost, recloses tightly and preserves contents. It is economical to buy and easy to use.

Ask your dealer for Merry War Lye—be sure you get "Merry War"—the lye that has made good for 33 years.
